LEGISLATURE SECURES IRRIGATION EXPERT

E. H. Riley, M.P.P., Interviewed Says he Favors Bridge
South of Gleichen—Reports Made on Two Sites

E. H. Riley, M. P. P. for this riding, in conversation with The Call man at Calgary last week stated that he had received word from Edmonton that the Legislature has engaged an irrigation expert whose duty it will be to travel among the farmers and give practical instructions in the art of irrigating.

To start with the expert will spend all of his time in the Gleichen district and it is expected he will arrive here very shortly to take up his work. The Government has set apart the sum of \$5,000 per annum for this purpose and taken the pains to secure the services of the best man obtainable for the work.

Mr. Riley stated that in bringing this matter to the attention of the Government he was in favor of employing two or three irrigation experts for a short time each summer as he believed they would cover more ground and give more practical instructions than by engaging one the entire year. However, he was pleased to have succeeded in getting an expert appointed and hoped it would prove most beneficial to the farmers. He pointed out that while the C.P.R. Co. had agreed to assist the Government expert in every possible way the Government should be entirely an employee of the government and in no way responsible to the company, which will give him a free hand to act as he thinks best.

Asked as to what he thought of the bridge across the Bow river being built south of Gleichen Mr. Riley said:

"I have no hesitation whatever in saying that I think the bridge should be built directly south of Gleichen and at a point that will be most convenient to the people of Queenstown. When this matter first came up I looked into the matter carefully and expressed that opinion and since have learned of no reason why I should change my first impression. In fact everything I have learned since has only served to convince me the more that that is the proper place for the bridge. The place where it will be most serviceable to the greatest number of people. Certainly it may be difficult to get a good location for the bridge and that will have to be decided upon by the surveyors."

"Mr. Calder was down there recently to make a survey and to report on the bridge but I have not learned what he thought of it. Just wait and I will call up his office on the phone and see."

Mr. Calder was out of town but a clerk answered that Mr. Calder had sent in reports to Edmonton on two different sites for the bridge but he was not aware any further move had been made in the matter. Continuing Mr. Riley said:

"This bridge will be quite an expensive undertaking. In fact the government has decided not to build any bridges unless substantial structures can be put in, for the reason that it does not pay. The sum of \$35,000 has been voted for this bridge, but that is only about half of what it will cost. I think probably it will cost more than \$75,000; \$35,000 being put in as the amount that would likely cover the work it would be possible to accomplish this year."

"I have worked to get the bridge south of Gleichen and hope the map brought up by Messrs. McNeill and Scott and the petitions sent by the Board of Trade from Queenstown and Gleichen will be acted upon and that the Department will decide to build the bridge there."

TO ENLARGE AND IMPROVE

The Gleichen Demonstration
Farm—To Add 400 Acres
and Registered Stock

The other day J. L. Skeen, manager of the Canadian Pacific Irrigation Company's Demonstration Farm at Gleichen, showed The Call a letter from C. W. Peterson, general manager, which goes to show that the company is preparing to enlarge their farm here and improve it in many ways.

One letter intimates that the Gleichen

Demonstration Farm will be increased in acreage by about 400 acres, adjoining the farm immediately east. Mr. Peterson is endeavoring to arrange with the Hudson's Bay to take over the land from the Farm along the north side of the railway track to Messrs. Stepien Bros. farm. This additional 400 acres will give the Gleichen Farm ample room to carry on the work on quite an extensive scale and prove exactly what can be done with irrigation in this district.

In conversation with Mr. Skeen he said that it was the intention not only to demonstrate just what could be done here in agricultural pursuits, but to show the possibilities of mixed farming generally.

The company are preparing to put on the farm a number of registered stock and Mr. Skeen has already made rough sketches for cow sheds, pigpens, etc., and the additional 400 acres will be used mostly for pasturage.

Only registered stock will be purchased, the object being to aid in bettering the stock generally in this district and to encourage the farmers to go more into dairying and mixed farming. When any of the stock brought in is to be disposed of they will be sold only to the farmers and at as low a figure as it is possible.

Later on it is probable that the company will add a number of registered horses but that will not be for some time yet.

"How is every thing looking at the Farm Mr. Skeen?" asked the reporter.

"Well, at the fine rains we are having keep up I think I will be able to keep my reputation as an irrigation man," laughingly remarked Mr. Skeen.

"I am beginning to think we will not need to irrigate much this year. Every thing we have planted is looking very well indeed. I never saw better looking beets in my life than we have ever there. The fourth lot is beginning to show and in a few days we will have to thin them out. The beets certainly are healthy and could not look better. Yes, everything looks well and those warm rains are just what we most need, you should come down and see for yourself."

QUEENSTOWN NEWS

Great growing weather.

Vic Jensen returned from Claresholm last Tuesday.

J. T. Johnson of Gleichen, accompanied by C. B. Berg travelling salesman for McCormick machinery Co., was through here canvassing this territory last week.

W. Briato, Government range inspector, was through here looking after his duties. Better have a little dope on hand and get to work and rid the country of the mange question altogether.

F. E. Robertson has started to beautify his residence with a coat of paint.

There is some talk of having a little Shingling here on the 4th of July. Full particulars later.

H. Harris and O. G. Calquhoun drove through to Lethbridge last week, Mr. Calquhoun returning Saturday.

A. Elder was up to Gleichen Monday.

J. Ladd is busy these days fencing on J. Heppner's farm.

The Plum Tree Belt—Gleichen.

There'll be a warm time in Gleichen July 1-5.

Improve your surroundings, boost a little and you will feel happy.

The appeal against the school assessment was postponed from Saturday until Wednesday.

Let not the settler run away with the idea that the Lumber Commission's decision that a combine is in actual existence will be "allowed to go." The government may be safely depended upon to right this great wrong. As soon as the various cabinet ministers, Dominion and Provincial, return from abroad, steps will no doubt be taken to apply the screws. In saying this, we are pinning our faith on Frank Oliver, the Done colander of the west—Eve Ospeyer.

Two Valuable Horses Drowned

O. Desjardine had a very narrow escape Sunday morning from drowning. The day previous he had crossed Crowfoot creek and was returning Sunday with a team of horses hauling a wheel scraper and a democrat. During the night it had rained heavily and the creek was very high, but thinking he could cross it drove in. Both horses were drowned and before Desjardine was able to reach the shore he went under several times and was carried down stream a considerable distance. Another man who came along just after the accident happened stated that he was about to drive in when he noticed Desjardine walking up the bank and thinking something was wrong waited until he came up and told him about it. He says there was not a sign to be seen of the two horses or the scraper or democrat, not even a line could be seen floating.

TOWN AND DISTRICT

The first shoot of the Gleichen Rifle Association took place yesterday afternoon, and each Wednesday afternoon hereafter a shoot will be held. As we go to press Wednesday evening it is impossible to give the scores made, for which some of the marksmen state they are devoutly thankful. A few rounds were fired on the range last Saturday and those who were present state the range is an excellent one.

A while back The Call drew attention to the cleaning up of yards and streets in town and we are pleased to note the suggestion has been very generally acted upon, although there is still room for improvement. At that time some of our citizens thought our remarks were severe and we would like them to take a look at some of the recent issues of the Calgary Herald and they will think The Call was very easy.

The Blackfoot Indians are now enjoying a Sun dance three miles south of town.

Rev. Mr. Fraser will conduct Communion service in the school house, at 11 a. m. Sunday, June 23rd.

It will not be long before The Call will have to enlarge its form. Stake out a space for yourself before it is all gone.

Miss Emma Goldman, the renowned lecturer on Anarchism, spoke in Calgary Sunday night, and so far no deaths have been reported from that city.

E. Grenier came in last week from Kneehill and visited Calgary. Mr. Grenier is one of Gleichen old-timers and his friends were pleased to see him.

E. Griesbach has a new dwelling house on Crowfoot street newly completed.

A heavy thunder storm passed over town Tuesday evening, the rain coming down heavily with a little hail, but no damage is reported.

A new concrete foundation is being put under The Call building by J. B. Dutoit.

J. A. Markie returned Sunday morning from an extended inspection of the Indian reserves north and south.

A. R. Yates visited Calgary Sunday strictly on business.

There were some good sports in town Monday night. It was too dark to make sure of the winners, but every man got away "something."

F. Newman and E. Cook of Calgary, were here this week painting buildings on the C.P.R. Co.'s Farm.

Saturday Geo. Baxter and Geo. Ross were in from Milk river, preparing for the round-up north of here.

G. Brown and E. Johnston were here Saturday from Strathmore.

Miss Alice Holmes of North Portal, Sask., is visiting Mr. Brownjohn at Kneehill.

A. R. Yates' new store is nearing completion and will soon be occupied.

F. E. Robertson is selling a big tract of land at a sacrifice. See him at.

Mr. Lowndes of Calgary, moved some good photographs of the Gleichen Demonstration Farm and buildings Monday, which are to be bound in a pamphlet the C.P.R. is preparing to publish.

S. Pelton has returned from a trip to Vancouver, and will go east shortly with his mother and sister to Montreal.

H. I. H. PRINCE FUSHIMI HERE

Stopped at Gleichen an Hour
Was Interested With the
Indians

Prince Fushimi, representative of His Imperial Highness the Mikado of Japan, paid Gleichen a brief visit Tuesday morning, when a large number of citizens were at the depot to greet him and many of the Blackfoot Indians were also present in full costume, and flags were floating over the Indian Agency.

At 7.15 the train bearing the Prince and his retinue stopped at the station and remained about an hour. The Prince was evidently sleeping when the train arrived as it was nearly half an hour before he appeared on the platform of the car "Governor-General." His presence was at once recognized by the doffing of hats by his party.

Prince Fushimi is very dark and wears a moustache and full beard, carefully trimmed. He was dressed in frock coat, white vest and leisurely puffed away at a cigarette as he viewed the crowd. He appeared much interested in the Indians and their costumes. He stepped off the car and carefully examined some of the medals they wore and asked questions concerning them which Councillor Nagasaki interpreted for him. An amusing incident was his close scrutiny of an old horn from a bagpipe which one Indian had decorated.

Prince Fushimi is rather taller in stature than the rest of his party. His bearing is upright and military, and he has an exceedingly graceful carriage, marking him at once as a soldier and courtier. In appearance his demeanor is stolid, which is of course characteristic of the nationality he represents.

Accompanying Prince Fushimi were the following party:

Saburo Baba, K. C. V. O., grandmaster of the household of his imperial highness, Prince Fushimi.

Major Otchiko Higashi, M. V. O., artillery aide de camp to his imperial highness Prince Fushimi.

Dr. Toizo Iwai, M. V. O., physician to his imperial highness, Prince Fushimi.

Motjiro Tsuda, attache to his imperial highness, Prince Fushimi.

T. Nono, imperial consul-general for Japan in Canada.

Miles W. Lampton, M. V. O., representing the foreign office.

Captain D. O. C. Newton, A. D. C., representing his excellency the governor-general.

Joseph Pope, C. M. G., I. S. O., representing the Dominion government.

W. R. Baker, representing the Canadian Pacific Railway Co.

Before leaving the Prince left with Indian Agent Gonderham a substantial sum of money as a present for the Indians.

STRATHMORE

A concert and social was held on the 14th in aid of the building fund of St. Ferran's Church at the Strathmore Hotel, and was a great success, over 120 people attending. The church will be built shortly.

A very select program by Strathmore talent was rendered as follows:

Song, "I'll Be a Sunbeam," Children's Chorus.
Song, W. Young.
Recitation, Miss Marion Ferguson.
Song, James Small.
Recitation, Mr. Currie.
Sleight of Hand, Prof. A. Godfrey.
Recitation, Miss Leo Chase.
Song, F. Small.
Recitation, Master John Ferguson.
Song, Mr. Irwin.
Recitation, Miss Marion Ferguson.
Comic Lecture, W. Bush.

Encores: Miss Chase, Miss Ferguson, Mr. Currie and Mr. Young.

At the close of the program refreshments were served, followed by a very successful dance.

Miss Leobing of Rochford was a Gleichen visitor Tuesday.

A Abinder was down from Calgary Tuesday.

The Calgary Chronicle comes to the front right pages strong this week. It looks as though the battery would have been that short to exhaust and it seems as if it is coming its way.

Exchange must be added on checks.

W. PARK EVANS, - - - Publisher and Proprietor.

Gleichen, Alberta, June 20, 1907.

Much credit is due Mr. E. H. Riley, M.P.P., for securing the appointment of a government irrigation expert to instruct the farmers in the use of irrigation. It is very important that settlers coming here should have the advice of an experienced man, and it is unquestionably a good advertisement for this district that the Government considers the importance of our big irrigation project so favorably as to foster it in this way. It should result in convincing all skeptical persons that irrigation here is no pipe dream and in bringing us many more settlers.

"Little Mack's" letters are in demand and each week many are looking for them. His "Observations" are always up-to-date and often very witty and The Call will no doubt be able to supply the demand fairly regular. It must be remembered our friend is a very busy man and that his writings are in demand by many papers, but The Call has the advantage in that all of his writings are sent us as a personal letter from which we take the liberty of printing extracts. Mr. McDonald is president of no less than eleven companies, is a builder of elevators, flour mills, etc., besides being interested in big land development schemes, and has several mining propositions which he is developing. The first of this month he put in motion the machinery of a new flour mill and grain elevator at Pincher Creek. The mill started off with a hundred barrels daily and there is sufficient power for double that amount. The Pincher Creek Echo devotes a column to "Little Mack's" enterprise and says three brands of flour will be made viz: Pride of the West, Hundred Per Cent and Standard Bakers, as well as Cream of

Wheat and a brand of brown flour to be known as Choice Graham.

Having completed the Pincher Creek enterprise he is already busy with another and writes us: "Since writing you last, I became interested in what will be known as the Dobbie-Herron-Hyde-McDonald group of hematite iron claims 18 miles from Pincher Creek. This group consists of four claims, amounting to 640 acres, and is a veritable mountain of iron. This done, I will have property examined by a well-known mining expert, and will lay the proposition before one of my New York clients.

Dollar wheat brings the sun from behind the clouds for the farmers of Sunny Southern Alberta, as well as the Milling Co. here, which bought a great part of its supply for 55 cts. bus. All this means a big dividend for the stockholders of my Company."

The Calgary Eye Opener came to the front once more Saturday. Wonder if it takes all of those cuss words to open the eyes of Calgaritians?

Up at Calgary they have buffaloed nearly everything that lar west and now they want a few real live buffalo.

Knocking is a crime. Boasting is one of the noblest works of creation. Why not arrest the criminal knockers?

Cranbrook Herald: "The man who sends his printing out of town when there is a printing office here that has spent thousands of dollars to build up a fine plant and pays the men good wages, would make his own mother eat at the second table and refuse her the use of a napkin." Such a thing may never occur in Gleichen and it is hoped The Call will never have to make such remarks.

The Gleichen Call

A CALL to the landless of the world to settle on the unoccupied, fertile irrigated lands of "Sunny Alberta" surrounding Gleichen, the heart and centre of these lands.

A CALL to the professional man, the artisan and the laborer to make his home in that Gleichen, which is certain to be one of the most prosperous towns in "Sunny Alberta".

A CALL to the capitalist and the investor to invest in a town and district, which will without any doubt repay his investments a hundred fold in the future.

A CALL to those in search of health—the greatest of all earthly blessings—to come to a Province becoming famous as a Land of Sunshine, neither enervatingly torrid nor frigidly arctic—a happy climatic medium.

A CALL to those now here to work for the interests of that Gleichen they have made their home, to work for its present interests and its future welfare; to work unselfishly and unitedly for its advancement and prosperity. To work and never rest content till "Our Town" reaches a higher and a higher and a still higher position, nor to cease their endeavors till at last she takes her place as one of the foremost cities in fertile, mineral-endowed, healthy, beautiful, Sunny Alberta.

S. M. DICKINSON.

Hide Your Hammer

The Herald's leading editorial on knockers yesterday seemed to meet with general approval and was much talked about. One well known business man came to congratulate the editor and at the same time handed in the following little sermon in a nutshell, addressed to knockers:

"Hide your little hammer and try to speak well of others, no matter how small you may really know yourself to be. When a stranger drops in 'Jolly' him, tell him this is the greatest town on earth; and it is. Don't discourage him by speaking ill of your neighbors. There is no end of fun minding your own business. It makes other people like you. Nobody gets stuck on a knocker."—Calgary Herald

Do you know any country where you can do better than in the Gleichen district? If you don't get busy and boost. If you do go there at once.

Look up the map and see how big the Gleichen district is. It may surprise you. It is all good.

If you want to get a good half-tone cut of your store, home, ranch or anything else The Call will supply it at a low figure.

It is good to see so many of our citizens fencing and beautifying their homes.

Some men think that home is merely a stopping place for meals and lodging.

Where is there a better town than Gleichen?

Everybody sits up and takes notice when baby enters complaint.

People may dodge responsibilities, but they cannot dodge the results.

There are women in this world who spend many hours each day figuring out how to make some other woman unhappy.

Honest toil is no disgrace to any man or woman, and beats unpaid debts all hollow.

No man can take a cent past St. Peter. Make your family happy whilst on earth.

A man in Hamilton, Ontario, has been asleep for 42 days. When he awakens he will be eligible to get on the city police force.

The Toronto Globe remarks that a red nose is caused by an improper diet or unhygienic dress. The rubes of the cent belt might believe this, but in the west it is universally admitted that the red nose is caused by trying to corn Seagram and Walker.—Herald, Cranbrook, B. C.

"SI R SAMUEL"

Registered Imported Clyde Stallion bred by Mr. Peter Kelly of Campbelltown, Argyshire, Scotland, is a bright bay, with white hind legs and face, 4 years old, has great flat bone and splendid joints, and would weigh upwards of 1600 if in condition. He is bred from the Lofty strain, which is one of the greatest getters of heavy stock that ever existed in the Old Country and has proved himself a sure fast getter.

Terms for Service \$10 for each Mare.

"CHESS"

This is nearly a thorough-bred Hamiltonian, 7 years old, standing 17 hands high. He was bred in Kentucky and is the sire of some good yearlings and foals of any horse in the Province of Alberta, and has proved himself a sure sire.

Terms for Service \$10 for each Mare.

The above horses are standing at the Farm of

**SUGAR BEET
GROWING**

Mr. Geo. M. Patterson, a beet grower of Fort Morgan, Colorado, has the following to say to the Calgary Herald, upon beet culture and its effect upon land values and settlement:—

"In 1896 I bought 320 acres in the Fort Morgan valley, located immediately between the city of that name and Brush. Fort Morgan is situated 80 miles east of Denver, on the B. & M. railroad, in the South Platte Valley.

"To arrive at a thorough understanding of what markets for farm produce mean to an irrigated district, it is necessary to use a few dry facts and figures. However, to those who are interested in the subject, the same will tell the story as nothing else can.

"My farm is situated just five miles east of Fort Morgan, and when I bought it in 1896 with ditch rights, I paid \$20 per acre for the same. In 1898 it had increased in value to \$30 per acre. In 1901 to \$40 per acre, and in 1903 it was worth \$50 per acre for general farming and stock raising. In July, 1905, after a sugar factory had been located at Fort Morgan, my neighbor, Mr. Wilbur Scoville, immediately across the road from me, sold his quarter section for \$75 per acre. In October, the same year, I sold my land for \$100 per acre, and today that and all other lands in the immediate vicinity cannot be bought for less than \$150 per acre. This year I bought 20 acres one mile east of Fort Morgan, and paid for the same \$225 per acre. Mr. Geo. Warner, who owns 280 acres immediately west of me, is now holding his land at \$300 per acre.

Beets Are a Sure Crop.

The people of Fort Morgan and that district, of course, are naturally very much interested in beet culture and its effect upon appreciating land values. It not only is a sure crop, but a continuous one, and the man who has a good beet farm in an irrigated district need not concern himself with the future, as it will take care of itself.

"You will observe from the figures given above that the introduction of beet culture increased the value of my farm 200 per cent within two years.

"Not only does beet culture increase the value of land, but it also increases settlement. With the advent of the sugar beet in 1903, the whole policy of farming operations was so changed that where my 320 acres had supported two families, six additional families were brought in to handle the beet growing, and of it alone, so that you will see that it has brought about an increase of 300 per cent in population. What this increase means to the town or city where they have to do their trading you will readily appreciate.

I understand that the Canadian Pacific Irrigation Colonization Company have established an assured market for sugar beets raised in their irrigation block at \$5 per ton. What this means to Calgary and Southern Alberta it would be hard to estimate, and I can assure you that if the people of Calgary had the faintest conception of what the beet sugar growing industry meant to this section, trading in these lands could be as active right here as it is in Fort Morgan and that vicinity. Of course, I have cited Fort Morgan as an example for the reason that it is my home town, but I can assure you that the same conditions prevail in other irrigated districts of the States where sugar beets are grown."

**PREACHING
NEW FAITH**

The Socialist Sunday schools continue to prosper and some of the members of the Liberal government are trying to plan a way to put an end to these Sunday schools as they are at present constituted without interfering with the traditional British right of free speech.

Here are some extracts from the Socialist Sunday school catechism:

How many classes are there?

Two. Aristocrats and working people.

Who are the aristocrats?

Those who enjoy wealth without working for it.

Who are the workers?

Men who work for wages and receive only a portion of what they earn, the other part going to keep the idle classes.

Who own the factories and warehouses?

The rich capitalist class, who will not employ men unless they can make a profit.

What is the consequence?

That men able and willing to work for food cannot get food for their wives and children.

Do men and women die of hunger in England?

Yes in the midst of plenty.

Do savages starve in the midst of plenty?

No, when there is plenty of food they all rejoice and feast and make merry.

Here are a few lines from the Socialist Sunday school hymn book:

**Gleichen
Hotel.**

Directly Opposite the Station. - - Every Comfort for the General Public.

Special attention paid to the Cuisine.

Open Day and Night.

Well Ventilated.

Lit by Pitner Light.

Hot Air Furnace.

"The Best in the West"

Do you know what it cost me to be able to write the above?

Fourteen years continuous study and practice.

Five Post Graduate courses in New York, Chicago, Buffalo, Toronto and Seattle. Hours of study and experiment when my professional brothers were out with the other lucky ones enjoying themselves.

Thousand of dollars where hundreds are generally spent in dental education.

— But, phew, knowing what I do I can honestly say: —

"It was worth while after all!"

Some Facts About The New Store

We are still adding to our stock and aim to carry a full line of everything in Dry Goods, Groceries, Boots & Shoes, Ready Made Clothing, Hardware, Etc.

Have you tried a pair of McCready Shoes? We bring them direct from the manufacturer and guarantee them as the best.
